## polyclonal antibody

An antibody produced by several clones of B lymphocytes as would be the case in a whole animal. Usually refers to antibodies raised in immunised animals, whereas a monoclonal antibody is the product of a single clone of B lymphocytes, usually maintained in vitro.

(18 Nov 1997)

**Previous:** polycistronic mRNA, polyclinic, polyclonal, polyclonal activator, polyclonal antibodies

**Next:** polyclonal antiserum, polyclonal compartment, polyclonia
